vvp	plural present, verb	Those faytours little regarden their charge
VVZ	3rd singular preseent, verb	knows
VVZX	3rd singular present negative, verb	She caresna for Seth.
xx	negative	not

The Digitial-AV utilizes the part-of-speech (POS) tags, sentence segmentation, and Lemmatization as provided by the MorphAdorner POS-tagger. <a href="http://morphadorner.northwestern.edu/morphadorner/">http://morphadorner.northwestern.edu/morphadorner/</a>. POS tagging of the bible verses themselves is performed during SDK compilation. In order to minimize the number of unknown words. Moreover, Hitchcock's Bible Name Dictionary and other proper noun lookups can explicitly override POS settings from MorphAdorner. Later releases may perform this type of override on pronouns and other archaic words if any anomalies in the POS tags are subsequently discovered. Accordingly, it should be noted that while the table depicts an accurate mapping of Digital-AV bits from/to standard POS tags, some bits get set by the SDK compiler.

Insight into Part-of-Speech mapping to WordClass bitwise definitions can be found in the Excel spreadsheet named: SDK-POS-WordClass.xlsx. Not all files in github are part of the SDK. Only files described in Digital-AV.pdf are actually part of an SDK release. Other files in here are used to generate this and future revisions. Still they are here for informational purposes.

POS (i.e. WordClass) Summary (not entire range of values):

Description	Low-3 Nibbles
NounOrPronoun	0x-03-
Noun	0x-01-
Noun: unknown gender	0x-010
Proper Noun	0x-03-
Pronoun	0x-02
